Great work.

Didn't you do RIP's 458 thread as well.

**Hannay****20 December 2020, 01:41**

Yes, I turned the first 222 pages into a PDF; the link and explanation is on page 223 of the thread. I'll post there again when I update it.

But the link to the 458 Win Mag thread PDF is here: [First 222 pages](#).

Is the PDF available anywhere else? Dropbox denies me entry because it doesn't like my browser.

**Hannay****19 January 2021, 21:31**

It's not available anywhere else.

What browser are you using?

No idea, I'm not a computer person. It just tells me it won't work and gives me a list of "approved" ones it wants me to switch to. I'm not falling for that. I'll just refer back to the forum if I need something from the thread.

It is not perfect, some pictures are missing (can't be loaded), but here it is in PDFs:

Printer friendly PDFs:

Maybe it will be useful.

P.S. I created very simple script in Python and used this tool: <https://wkhtmltopdf.org/>
